1 How to Setup Khan Academy Mappers

Visit khanacademy.org/mappers to get started.
Scroll down the page, the first section you will see is an option to input your own MAP scores.
If you would like students to input scores themselves, have them go to the section labeled "You.
Use the dropdown menu to select the correct test (Mathematics 2-5 or Mathematics 6+).
Click the blue Where do I find my scores? link for directions on where to find the RIT scores to input.
Use the MAP score report to determine the correct value for each topic area.
Input the appropriate score in each of the available boxes.

2 Input Scores

Use the dropdown menu to select the correct test (Mathematics 2-5 or Mathematics 6+).
Click the blue Show me the recommendations! button to receive personalized study suggestions for each topic area.
Each link will take the student directly to activities aligned with the skills needed to improve performance in the topic area.
Students can practice any of the individual exercises by clicking the Practice button on the right.
Khan Academy Recommends to spend at least 30 minutes per week! (6 min per school day)!

3 Recommendations

Click the blue Show me the recommendations! button to receive personalized study suggestions for each topic area.
Each link will take the student directly to activities aligned with the skills needed to improve performance in the topic area.
Students can practice any of the individual exercises by clicking the Practice button on the right.
Khan Academy Recommends to spend at least 30 minutes per week! (6 min per school day)!

4 New Feature!!

If you prefer to set up student scores yourself, scroll past the section labeled "You" on the Mappers homepage to the next section labeled "Your students.
Click the dropdown menu Filter students by class to select a class.

5 Last Few Steps

You can now enter scores for each of your students using the same process as steps 3-7 above.
Once students begin working on their recommendations, you can visit this page to see the progress they are making across topics.
You can also enter new scores for any student by clicking the blue Enter new scores link below their current progress.
Note: If you have additional questions about this prototype, please email us at maptestpractice@khanacademy.org.
